

## Ranjna Shiyani

I am proud to be leading Ashley College and part of an excellent team of professional, experienced and dedicated staff who endeavour to provide a calm, safe, nurturing environment and personalised learning opportunities to enable our students to succeed.

I am passionate about supporting each and every student to enable them to re-engage in learning, gain confidence, develop resilience and achieve their potential.

I started my teaching career in Brent over 20 years ago and have since gained experience of a wide range of educational settings including secondary, primary, all through behaviour PRUs and a medical PRU in Haringey and Ealing. My training is in the Arts, I have successfully led a faculty in Brent, been a senior leader at an Art Specialist School in Islington, in charge of the specialism, as well as a year in an Islington primary school as a Year 5 teacher and senior leader.

I have previously held a parent/community governor role at a primary school in Harrow for over 6 years. Returning to Brent in 2016 was due to my desire to work with and give back to my local community. I am passionate about supporting children and young people to succeed and help instil in them the importance of education and community.
